CONSENT FOR MEDICAL TREATMENT
<p>The undersigned, as the above patient or as the parent, legal guardian or legal representative of the above patient, hereby consents to medical treatment of the above patient by Western Sierra Medical Clinic (WSMC) and its medical providers and clinical staff. Treatment may include any necessary examination, test or medical procedure a WSMC medical provider in the exercise of his/her best judgment may deem advisable for the above patient to be performed by WSMC clinical staff. I understand and acknowledge this authorization is given in advance of any specific diagnosis, treatment or procedure being required to provide specific consent to any and all such diagnosis, treatment or procedure a WSMC medical provider in the exercise of his/her best judgment may deem advisable for the above patient.</p> <p>I understand the above patient may ask questions and have all questions answered and also may refuse treatment at any time.</p> <p>If the above patient is seeking substance abuse testing, I authorize WSMC to obtain a specimen pursuant to proper medical protocol to determine the presence of drugs or alcohol.</p> <p>I understand that some physical exams (like fitness for duty, school, or sports) and other services are not intended to diagnose medical conditions or replace the medical care of the above patient's personal physician.</p>

HEALTH INFORMATION EXCHANGE

Electronic Health Information Exchange (HIE) allows doctors, nurses and other health care providers to access and securely share a patient's vital medical information electronically, improving the speed, quality, safety and cost of patient care. Electronic health information systems can help prevent errors by ensuring that everyone involved in a patient's care—whether in a primary care setting, a specialists' office or emergency department—has access to the same information. HIE helps facilitate coordinated patient care, reduce duplicative treatments and avoid costly mistakes. This practice is growing among health providers because the need for HIE is clear and the HIE benefits are significant.

By default, all patients are "Opted In" in the HIE, meaning that once notified of the HIE, a patient must complete an Opt Out form if they do not wish to participate. A patient's health information will be available to all of the providers in the system who need it to provide care WITHOUT having to sign any further forms. Please see the receptionist if you would like a copy of this form or would like to request a change to your HIE options.

TELEMEDICINE

At WSMC, we offer telemedicine services as a convenient way to receive medical care through phone or video consultations. This method is cost-effective, saves time, reduces transportation barriers, and improves access to healthcare. Studies have also shown that telemedicine can improve the quality of healthcare.

However, it's important to note that telemedicine does have limitations. Telemedicine requires adequate privacy, technology, and service to conduct phone calls or video visits. In some circumstances, it may not be appropriate for conditions that require a physical examination.

Telemedicine visits costs can vary by insurance, however, the visit cost for telemedicine is no more than a standard office visit. You have the right to request more information about our telemedicine services. You may deny telemedicine visits and request an in-office consultation at any time during the scheduling process.

FINANCIAL RESPONSIBILITY

It is the patient's responsibility, and the responsibility of a patient's parent/legal guardian, to pay their share of charges for services provided by WSMC at the time of service, unless other arrangements are made in advance in writing signed by the patient and an authorized WSMC staff member. Payment of a patient's share can be in the form of insurance copays, deductibles, or cash payment for uninsured patients and cash pay patients. Patients not enrolled in health plans are responsible to pay for the entire amount of their bill. Patients enrolled in health plans are responsible for any amount the plan does not pay, up to the entire amount.

WSMC accepts cash, checks, and most major credit cards. A \$25.00 fee will be charged for the first check returned by the bank and a service fee of up to \$35 for each subsequent check returned by the bank to that same payee.

WSMC does not accept liens or other forms of promised payments for patients who are involved in work-related or personal injuries (e.g., automobile accidents). Patients pursuing claims for work-related or personal injury should consult with their employer and/or the appropriate insurance company for health care needs. WSMC will provide primary care services to a patient pursuing these claims as requested by the patient, but the patient remains responsible to pay for all such services in full. WSMC will not bill workers compensation, automobile or other similar insurance company.

IDENTITY AND INSURANCE VERIFICATION

Patients are required to provide WSMC with correct insurance information and to verify current personal information (home address, employer, phone number, insurance cards, and photo ID) at the each appointment check-in. It is important that you bring proof of insurance each time you visit. Failure to do so may result in you not being seen or being required to make a full payment at the time services are rendered.

WILLINGNESS TO PAY

No one will be denied services at WSMC due to inability to pay as long as there is a "willingness" to pay. Willingness to pay means either paying for services rendered (either through insurance with payment of patient copays and deductibles, cash pay, sliding fee scale) or a commitment to follow a written payment plan in order to pay off any outstanding balance in accordance with WSMC's policies and procedures.

An unwillingness to pay is demonstrated by a patient when the patient refuses to pay for services rendered (including copays, deductibles, and fees owed under the sliding fee scale discount program), refuses to commit to a written payment plan, or refuses to comply with a written payment plan signed by the patient.

Uninsured Patients needing financial assistance to pay for services should fill out a sliding fee scale application (see below) and may seek assistance from staff.

If a patient signs a written payment plan and has difficulty making payments under the plan, WSMC's Billing Department Supervisor is available to discuss amending the payment plan.

SLIDING FEE

For patients who qualify, a sliding scale discount may be applied to a patient's initial primary care, dental or behavioral health visit and for visits over the following six months. Patients who desire to apply for a sliding fee discount are required to complete an application, which explains WSMC's sliding fee scale discount program. Please ask a WSMC Billing Department staff member for the application and for an answer to any question regarding the sliding fee scale discount program.

ASSIGNMENT OF BENEFITS

I hereby irrevocably assign and/or convey directly to Western Sierra Medical Clinic, Inc. and/or its contracted healthcare providers (hereinafter "WSMC"), as my designated authorized representative, all medical benefits and/or insurance reimbursement, if any, otherwise payable to me for services, treatments, therapies, and/or medications rendered or provided by WSMC for treatment/services rendered by WSMC, regardless of its managed care network participation status. This Assignment of Benefits shall apply to all insurance coverage, including but not limited to the Centers for Medicare and Medicaid Services, its intermediaries, carriers or administrative contractors, State Medicaid programs, or any other governmental or commercial insurance. I understand that I am financially responsible for all charges regardless of any applicable insurance or benefit payments. This assignment is valid until revoked in writing. A photocopy of this assignment is to be considered valid, the same as if it was the original.
